Our Afternoon with the Digglers by Luke & Leah Worthington

We had a really interesting day with the Digglers! I loved seeing all the cats that Kath looks after. She told us all about where the fresh water comes from in Diggle. We even got a chance to look at the tree that has been planted and named after me and my family. I now know the difference between hay and straw and also what food the sheep like to eat. Thank you Kath for a great afternoon.
